Contemporary Tapestry: Trends & Traditions
90-minute PowerPoint lecture

Tapestry today is incredibly diverse. Whether you weave tapestry or just enjoy looking at it, it's good to be aware of what is being done, here in the U.S. and around the world. Join me for a quick tour through tapestry today that will make you a more informed viewer and/or designer of tapestry art. From solo designer-weavers to artists who commission tapestries from large workshops, from traditionalists to experimentalists and everyone in between, we'll look at it all. You'll leave with a deeper appreciation of this wide, deep, and still-evolving art form.

Skill level: all. Supplies: Optional pen or pencil for notes. Supply fee: none
