

STUDENT TESTIMONIALS

*[About a virtual workshop via Zoom] Your **intensive advance preparation** showed in the quality of your power point presentations. This was a bonus, for me, because I could view the work up close, more so than had I been in a classroom situation with you. . . . The content was **very comprehensive!** I very much appreciated your careful attention to the time, and the inclusion of short breaks and mini-exercises interspersed throughout each session. There was certainly no time wasted! What more can I say... **it was fantastic!** You are a skilled teacher and you have been able to adapt to the reality of our current Covid world. Thank you!*

Carolyn

I got a lot out of your session. I especially like the 4 steps of critique. I will be sharing it with my other artist friends.

Tamara

*I just want to let you know how much I enjoyed your collage class and meeting you. I was expecting to enjoy it, but it **exceeded any expectations** I had. Thank you.*

Jo

*I finished my little tapestry. I had **big fun** in the class and I can see where this could lead to some wonderful things ahead. You were a **great teacher** and I appreciate the time we spent together.*

Rosalie

***One of the best classes I have ever taken.** It can be fun to work outside of my personal box. Creativity often comes from just fiddling around, messing up a little, and paying attention to the ah-ha's. Thank you for your preparation and your lovely teaching manner.*

Pat

*Molly is **energetic, organized, and used examples** to help us understand the concepts.*

Rebecca

*I enjoyed the class very much. Everything was well organized with supplies, handouts and demos of each technique. It was a **great one-day seminar.** Keep up the good work.*

Sandy
